

Title: Bell Bay Berth 6 ADCP deployment
Port: Port of Launceston (Bell Bay)
Duration: 05 Feb 2026 till 1 March 2027

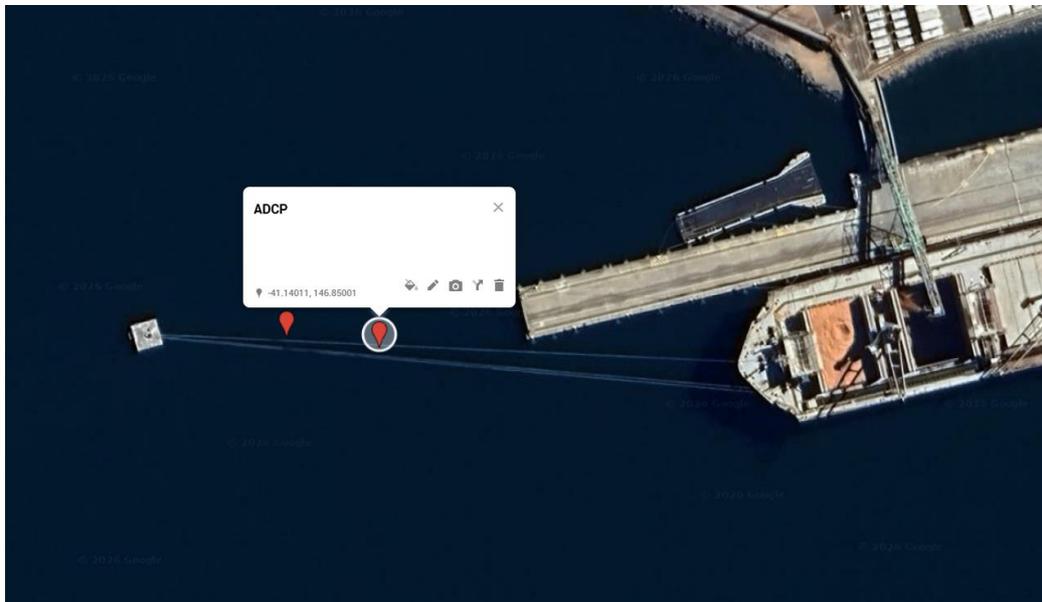

Description:

Mariners are advised that a standalone seabed mounted AquaDopp Current Profiler (ADCP) has been installed at Bell Bay Berth 6 for current data collection.

The unit is situated at Lat 41° 08.407'S, Long 146° 51.001'E, between the western end of the berth 6 wharf and the mooring dolphin to the west, as indicated in the figure below.

The unit sits approx. 500m above the seabed. It is expected to be in place for up to 12 months.

Mariners are requested to avoid dredging anchors in vicinity of the unit.
