For scheduled arrival shipping movements to all berths, divers are to be out of water at Pilot On Board (POB) time.

For scheduled departure shipping movements divers are to be out of water 30 mins prior to scheduled Last Line on vessel departures from all berths.

The dive crew are to maintain a listening watch on VHF 14 at all times.

### **Port Operation Controls:**

All port vessels are advised to maintain a low wash in the vicinity of the works area and keep a safe distance away (50m minimum) from the dive location during the hours of operation.

VTS will be able to advise upon request of any expected vessel movements likely to affect the TDG operation.

All vessels are to keep VTS updated of any changes to their scheduled departure times specifically if the vessel wishes to depart ahead of schedule.
