

Title: Tug Standby Requirements

Port: Port of Burnie

References: Ports Procedures Manual – Section 12.2.4.

Description: In addition to the existing procedures in place and following a required safety case reassessment for the risk treatments associated with visiting cruise vessels over 240m LOA, two tugs are to be available within 2 hours notice at all times whilst the cruise vessel is in port.

For visiting cruise vessels less than 240m LOA, one tug is to be available within 2 hours notice at all times.

This requirement will be reassessed on an annual basis and remains in force until cancelled.
