

Pilot Ladder Checklist

Vessel Name: _____

Date of Pilot Transfer: _____

To the Master of the Vessel,

TasPorts require you and your crew to fully cooperate with our pilot launch crew to ensure the safe transfer of Pilots to and from your vessel.

You are responsible to ensure that the pilot ladder has been stored and maintained in good condition and that it is regularly inspected and certified by the manufacturer of the ladder that it complies with the requirements of SOLAS CH V- Regulation 23 - Pilot Transfer Arrangements Resolution A.1045 (27).

TasPorts supports all members of the pilot launch crew who decide not to transfer due to an unsafe ladder arrangement.

Please note that any failure from you to provide a fully compliant pilot transfer arrangement will result in your vessel being rejected for pilot boarding, and additional charges may be levied to your vessel.

The Master of the Vessel is to ensure this Pilot Ladder Checklist has been completed and emailed to TasPorts VTS along with the Vessel Movement Advice (VMA) at least 72-hours prior to the planned pilot transfer taking place.
